## Highways Planned Maintenance Programmes 2022 – 2024

### 1. PURPOSE

- 1.1 The purpose of the report is to gain approval for the Carriageway Surfacing, Footway and Carriageway Preventative Programmes for 2022/2023 and the Carriageway Surfacing and Footway Programmes for 2023/2024

### 2. BACKGROUND

- 2.1 The Highway Investment Strategy states that future highway maintenance programmes should seek to prioritise interventions according to:

- The importance of any road in supporting economic growth.
- Condition rating; and
- Value for money.

- 2.2 The Strategy also stated that: -

- A longer-term rolling programme of capital maintenance work should be developed in liaison with local Members, which allows for investment decisions to support strategic priorities, provide better coordination with other work programmes and projects, better allocation of resources and budgets and greater clarity of what can be expected for stakeholders.
- A programme of preventative works will be adopted as this will deliver the best value for money and will be prioritised for delivery.
- Investment in resurfacing will be targeted in the following priority order - the Key Route Network (KRN), roads of local strategic importance in accessing employment (described as the Community Network in the Strategy) and finally local roads; and
- Maintenance works may also be programmed to coordinate with other capital projects being carried out in Manchester, which will be cost effective in terms of delivery and additional value to the project.

- 2.3 The current highway investment programme comprising £80m for maintenance works over 5 years (2017-2022) which has been primarily spent on improving the condition of Manchester's roads, footways and drainage finishes at the end of March 2022.

- 2.4 The Executive has agreed that investment still needs to be carried out to continue the improvement of Manchester's highways.

- 2.5 Programmes 2022 / 2023 and 203 / 2024 contained in this report have been developed in line with the Highway Investment Strategy and they effectively form Years 6 and 7 of the Strategy.

### **3. PROPOSALS**

- 3.1 Proposed Carriageway Surfacing and Footway Surfacing Programmes 2022 – 2023 and 2023 – 2024 and proposed Carriageway Preventative Programme 2022 - 2023
- 3.1.1 Details of the proposed programmes are contained in the following appendices to this report:
- Appendix 1 Proposed Carriageway Resurfacing, Footway and Carriageway Preventative Programmes for 2022- 2023.
  - Appendix 2 Proposed Carriageway and Footway Programme for 2023 – 2024
- 3.1.2 The proposed programmes were formulated after using the latest condition information and highlighting all suitable roads within targeted wards. Neighbourhood teams and ward members were consulted on the proposals, and some asked for additional works and / or omissions to the original and the proposals in the appendices reflect those wishes.
- 3.1.2 Works will be delivered through our existing framework contracts, to obtain best value.
- 3.2.4 Any amendments to the schedule will be communicated to the appropriate locality teams and local members so that they are kept informed of any changes that become necessary.
- 3.2.5 In addition, before starting any planned work on the highway, contractors will contact all local residents and businesses who live on the street that will be resurfaced. Prior to this, the Ward members will be notified and given a copy of the letter that will be distributed to residents.
- 3.2.6 The approved maintenance programme will be made available on the Council's Web site and it will be regularly updated with progress.

### **4. TIMESCALES**

- 4.1 The works proposed in this report are scheduled to be delivered during the financial Years 2022 - 2023 and 2023 - 2024.

### **5. FINANCIAL IMPLICATIONS**

- 5.1 The cost of the works for 2022 - 2023 is contained within the maintenance budget already agreed by the Council's Executive and the City Treasurer and will be the subject of a Checkpoint application. Further approvals will be sought for the 2023 – 2024 works.

### **6. IMPLICATIONS FOR KEY COUNCIL POLICIES**

- 6.1 Anti-Poverty Implications

- N/A

- 6.2 Equal Opportunities Implications

- To provide a suitable and safer environment for pedestrians and other road users.

The scheme contributes to the corporate objectives of making the environment accessible to all and creating neighbourhoods of choice.

- 6.3 Environment Implications

- To develop and sustain a healthy, safe and attractive local environment which contributes to the city and its people's economic and social well-being

#### 6.4 Employment Implications

- To develop and sustain a healthy, safe, and attractive local environment which contributes to the city and its people's economic and social well-being.

## 7. RECOMMENDATIONS

7.1 It is recommended that the proposals outlined in this report be approved for the reasons set out above.
